

## ELECTION SECURITY

NovaVision offers a wide variety of products to improve your [election security](#). This includes physical access security for polling sites, tabulators, ballot boxes (manual or electronic), storage boxes, documents, servers, and routers.

Before accepting any election security orders, we check to confirm that our election security products are only shipped to validated government organizations that are authorized to administer and control elections.

### Tamper Evident Labels

Tamper evident labels can serve as a deterrent to tampering to maintain the integrity of your election. A non-residue security label eliminates the time, material, and inconvenience to clean up the sticky adhesive residue typical of other security labels. When removed, the hidden pattern OPEN VOID will appear in the film, but it leaves no residue on the affixed surface.

### Plastic Seals & Padlocks

NovaVision offers a variety of plastic seals, adjustable seals, and plastic padlock seals. These seals are serialized and barcoded for added security.

Plastic seals are used to mechanically secure a variety of containers. Typical applications include truck doors, trailer doors, railcar doors, totes, valves, coin bags, inner drum bags, and any container with a hasp or loops.

### Cable Seals

Cable seals are durable and intended for higher security applications. They are available in different cable diameters and lengths for use in various scenarios.

Our 3.5mm and 5.0mm cable seals are compliant with ISO 17712:2013 and are rated as high security (H) seals. Authentic NovaVision cable seals have our brand name NovaVision™ etched on the locking housing.

### Silver Hologram Labels

NovaVision's election security hologram labels are only sold to election organizations that control and administer elections and voter registration. These specific products are sold as designed, without further customizations.

These silver holograms are manufactured with a MADE IN USA background and imprinted ELECTION SECURITY with a unique serial number in black ink.

### Tamper Evident Tape

Our election security tape provides an anti-tamper seal for shipping cartons, pallets, letters, bags, and many other containers. After applying the security tape, removal will cause the tape to self-destruct, leaving words (OPENED, VOID, etc) on both the affixed surface and in the security tape. Additionally, we offer customization options for added security.
